

WOMAN OF THE EARTH

(MISS EARTH Theme Song)

Listen to my voice
Singing in the wind
Feel my gentle touch
In the golden sunlight

I was born to love
Kiss your tears away
Vanish all your fears
Fill the world with joy

I am a woman of the Earth
Spreading love and joy, fun and laughter
Woman of the Earth
Making miracles forever after

Loving, Caring
Working, Sharing
Teaching, Singing
Mothering

See my loving glow
In a blushing flower
Watch my dreams take wings
Over skies so blue

I will save the Earth
And its every glory
I will teach my child
Every golden story

I am a Woman of the Earth
Spreading love and joy, fun and laughter
Woman of the Earth
Making miracles forever after

Loving, Caring
Working, Sharing
Teaching, Singing
Mothering

Woman of the Earth (I am woman)
Woman of the Earth (I am woman)
Woman of the Earth!
